Re: Salem Communications Holding Corporation
(SCHC)
WTBN(AM), Pinellas Park, FL
Facility Identification Number: 51985
Special Temporary Authority (STA)
BESTA-20201016AAM

Dear Mr. Henderson:

This is in reference to the request filed October 16, 2020. SCHC requests a further extension of the STA originally granted on December 6, 1994, as last modified on September 19, 2018, to operate ND with reduced power to allow time to complete repairs.¹ In support of the request, SCHC states that additional time will be needed to finish repairs and testing.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is hereby granted, and SCHC may continue to operate ND with a maximum of 1.25 kW (day and night). SCHC must reduce power or cease operations if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radiofrequency radiation in excess of the Commission's exposure guidelines. See 47 CFR Section 1.1310. SCHC must submit an e-

¹ WTBN(AM) is licensed for DA operation on 570 kHz with 5 kW (day and night), using different patterns, and BP-20200615AAD authorizes a new DA day and night facility using the existing WGUL towers.

mail to my attention to note the date an FCC Form 302 application was filed to update all operating parameters, or to note the date the station resumed licensed operations per BML-20100506AGM with negligible changes. In the meantime, the related request BESTA-20190128ABJ to use the licensed night pattern at 10 kW will remain on hold until after SCHC has first been able to verify the return to licensed 5 kW day and night operations.

This authority expires on **May 4, 2021.**

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with a large loop at the beginning and a long, sweeping tail.
