REQUEST FOR EXPEDITED PROCESSING

Re: American Educational Broadcasting, Inc.
FCC File No. CDBS20161110____
K263BL, Carson City, Nevada, Fac. ID 147869

Dear Secretary Dortch:

American Educational Broadcasting, Inc., by and through counsel, requests expedited processing of the above referenced application (the "Application") for a minor modification of the construction permit for K263BL, Carson City, Nevada, Fac. ID 147869, BNPFT-20130826AGA (the "Permit"), so that it may complete construction of the proposed facility by the Permit's expiration date of December 6, 2016.

AEB planned to assign Station K263BL to another entity to use as a fill-in translator for an AM station in the most recent "250-Mile" filing window. See BALFT-20160728ABR. However, the proposed assignee was unable to use Station K263BL for this purpose due to technical considerations. See BMPFT-20160728AEG.

AEB proposes to relocate Station K263BL to the tower site of noncommercial station KNIS(FM), Carson City, Nevada, Fac. ID 71818 to serve as a fill-in translator.

With this change of events, AEB has decided to build out the Permit, but must do so quickly because of the impending expiration date and weather concerns in the coming winter weeks. AEB has all of the equipment on-hand to construct the facility and has reserved consulting engineers to accomplish this task. Expedited processing would serve the public interest in this case as Station K263BL would support the service of noncommercial Station KNIS.

If you have any questions regarding this notification, please contact the undersigned.

Very truly yours,

Nathaniel J. Hardy
