

## EXHIBIT 4B

4/27/2017

Rev. Joan Ross  
Director  
North End Woodward Community Coalition  
7700 2<sup>nd</sup> Avenue  
Detroit, MI 48202

SUBJECT: Survey Certification Letter for WNUC-LP 96.7 FM tower, FCC Facility No. 196589, FCC Construction Permit No. BMPL-20150562AAA, located on the property owned by Comprehensive Health Services at 7700 Second Avenue, Detroit, MI 48202-2623, being parcel number: 02001153-5 within Leggets Subdivision, recorded in Liber 21 of Plats, Page 53, Wayne County Records.

Dear Rev. Ross,

This is to certify to you and WNUC-LP 96.7 FM that on April 26th, 2017, field measurements were made to establish a baseline along an azimuth of  $335^{\circ}$ , based on true north for the orientation of the antenna and that the bays are pointing in the direction of  $335^{\circ}$  true north. Field measurements were made using a Leica GS14 GNSS Sensor with a GS15 Controller based on grid north. The convergence between true north and grid north is  $+00^{\circ}52'36''$ . The azimuth in the field was staked on grid north at  $334^{\circ}07'24''$ , which translates to  $335^{\circ}00'00''$  true north. Coordinates were established using Real Time Kinematics in reference to the Continuously Operating Reference Stations on the Michigan Spatial Reference Network. The center of the tower was measured with a GPS coordinate and then a point was staked on the azimuth of  $335^{\circ}$  true north from the center of the tower to a point in an alley between Delaware Street and Seward Street approximately 420 feet away. A mark was also staked on the azimuth line on the roof top at the north edge of the building at 7700 Second Avenue to verify the baseline position.

Respectfully,  
Anthony L. Gonzalez  
Michigan P.S. # 56165  
Giffels Webster
