

**PORTIONS BEING REVISED**

In accordance with **Report and Order**, DA 04-374 (released February 19, 2004) (“**Report and Order**”), North Dakota Television License Sub., LLC (“NDTV”), submits the instant application, FCC Form 301, for a minor change to its construction permit, BPCDT-19991015AAS, for digital television station KVLV-DT, replacing the previously allotted channel 58 with the newly allotted channel 44. The **Report and Order** (2) specifies the technical facilities for the new allotment to be:

<u>State &amp; City</u>	<u>DTV Channel</u>	<u>DTV power (kW)</u>	<u>Antenna HAAT (m)</u>	<u>DTV Service Pop. (thous.)</u>
ND Fargo	44	414	543	313

The attached application complies with 47 CFR Section 73.622 as amended in the **Report and Order** (3); the answers to checklist questions 1(a)(b)(c) are yes. Accordingly, the instant application reflects the following changes:

**Section III-D-DTV Engineering**

- Question 1** DTV channel changes from 58 to 44
- Question 7** Height of Radiation Center Above Ground Level changes from 305 meters to 543 meters
- Question 8** Height of Radiation Center Above Average Terrain changes from 299 meters to 543 meters
- Question 9** Maximum Effective Radiated Power changes from 389 kW to 414 kW
- Question 10(a)** Antenna Model changes from TLP24J(c) to TFU-28DSC-R03 (Manufacturer remains Dielectric)
- Question 10(d)** Antenna changes from directional to Non-Directional
