Re: Amor Radio Group Corp FM Tower Environmental Study

Environmental Statement

The proposed Amor Radio Group tower does not have a significant environmental impact, thereby requiring an Environmental Assessment. The proposed Amor Radio Group construction complies with the environmental criteria as follows:

1. The proposed tower construction does not use high intensity lighting.
2. The proposed tower construction is not located in an officially designated wilderness area or wildlife preserve.
3. The proposed tower construction does not threaten the existence or habitat of endangered species.
4. The proposed tower construction does not affect districts, sites, buildings, structures or objects significant in American History.
5. The proposed tower construction is not located in a flood plain.
6. The proposed tower construction does not require construction that involves significant changes in surface features.
7. The proposed tower construction is in compliance with FCC environmental requirements.
8. The proposed tower construction does not require registration as determined by an FCC Towair study.
