**TECHNICAL STATEMENT**

1. This technical statement and attached exhibits were prepared on behalf of Cumulus Media, Inc. ("Cumulus") proposed transferee of stations WQQK, Channel 221A, Hendersonville, Tennessee, and WNPL, Channel 294A, Belle Meade, Tennessee; and Cumulus Licensing Corp. ("Cumulus"), proposed assignee of WRQQ, Channel 246C2, Goodlettsville, Tennessee. The 3.16 mV/m contours of WQQK, WNPL and WRQQ overlap. This results in Cumulus having common interests in three FM stations in the same radio market. Exhibit #1 is a map depicting the stations.

2. Therefore, a study has been conducted to determine if ownership of these facilities complies with §73.3555 of the Commission's rules. The city grade contours of the subject stations are used to define the market boundary, hereinafter referred to as the "Radio Market". The study will determine the number of other commercial AM and FM stations that either have transmitter sites within or provide coverage to the subject radio market.

3. Exhibit #2 is a depiction of the Radio Market with the transmitter sites or city grade contours of fifteen commercial AM and FM stations, including the three subject stations. Exhibit #3 is a tabulation of the stations in the Radio Market. The number of stations depicted

falls in the fifteen to twenty-nine stations tier of §73.3555(a)(1)(iii) of the Commission's rules.<sup>1</sup>

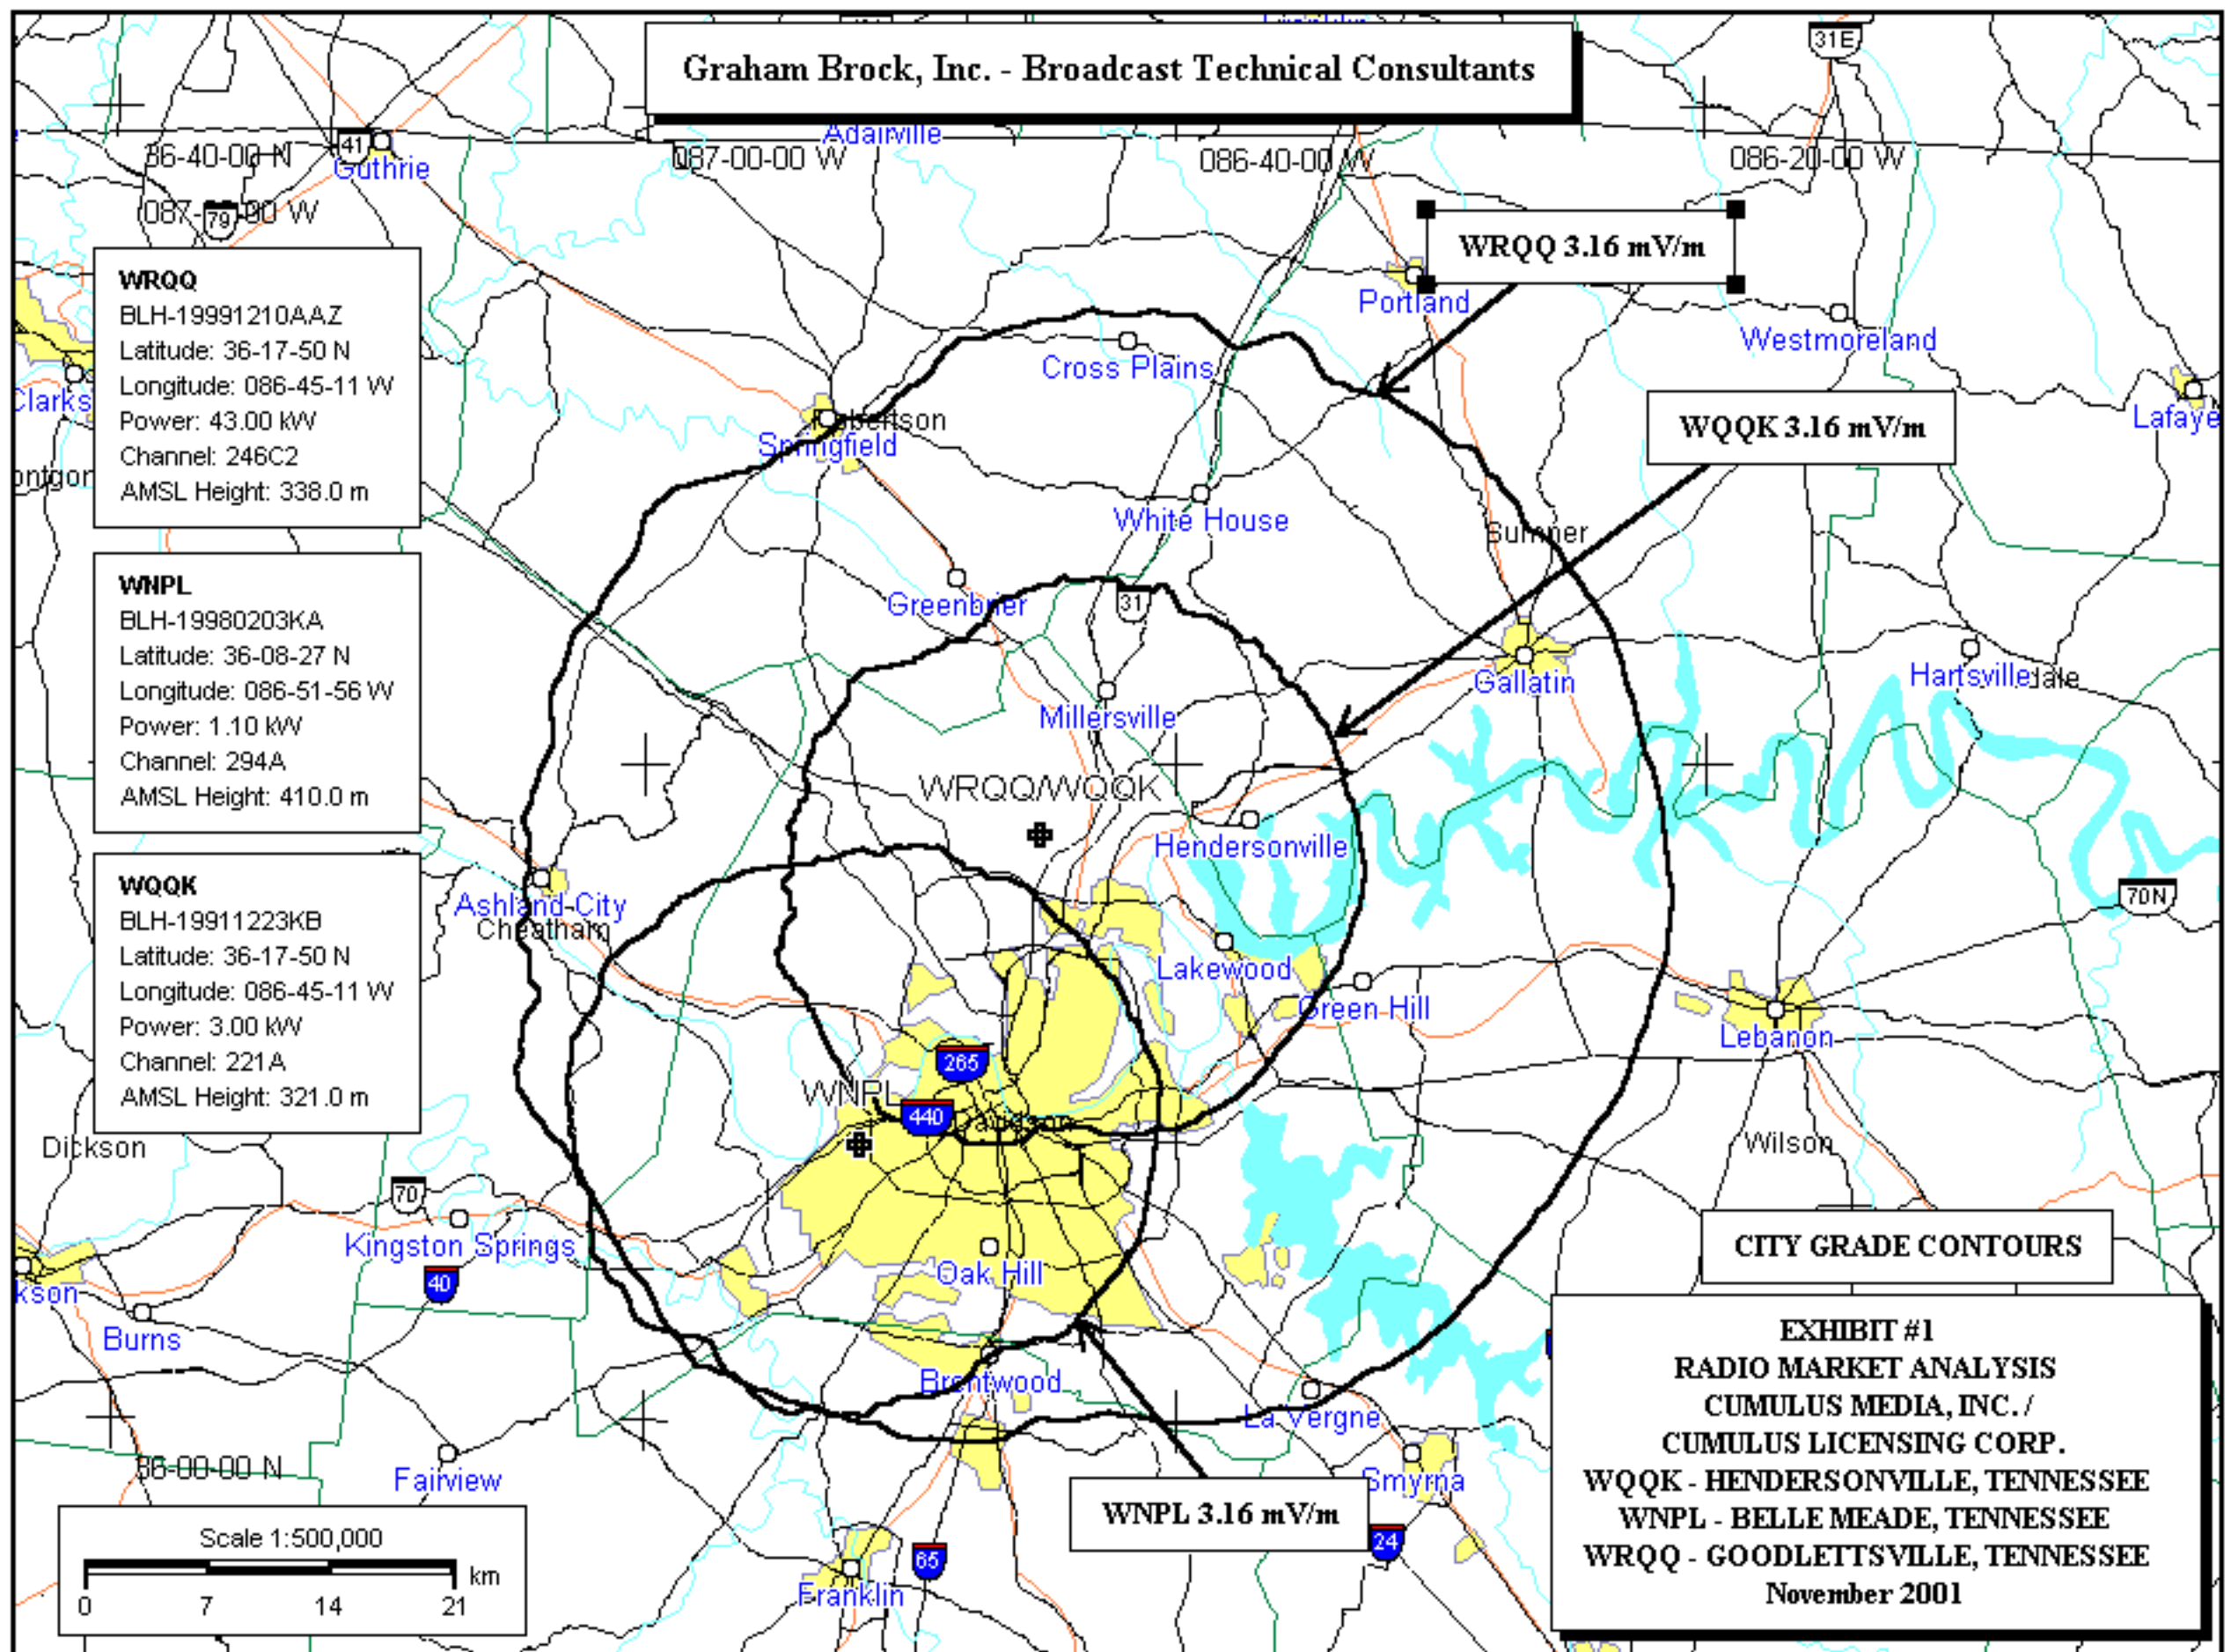

At the fifteen to twenty-nine stations level, common ownership or control of up to six stations, with no more than four in the same service, is permissible. Therefore, Cumulus's proposed ownership of WQQK, WNPL and WRQQ is in compliance with §73.3555 of the rules.

4. The foregoing technical statement was prepared on behalf of Cumulus Media, Inc., and Cumulus Licensing Corp., by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities was extracted from the CDBS database. We assume no liability for errors or omissions in that database which may be adverse to the information contained herein.

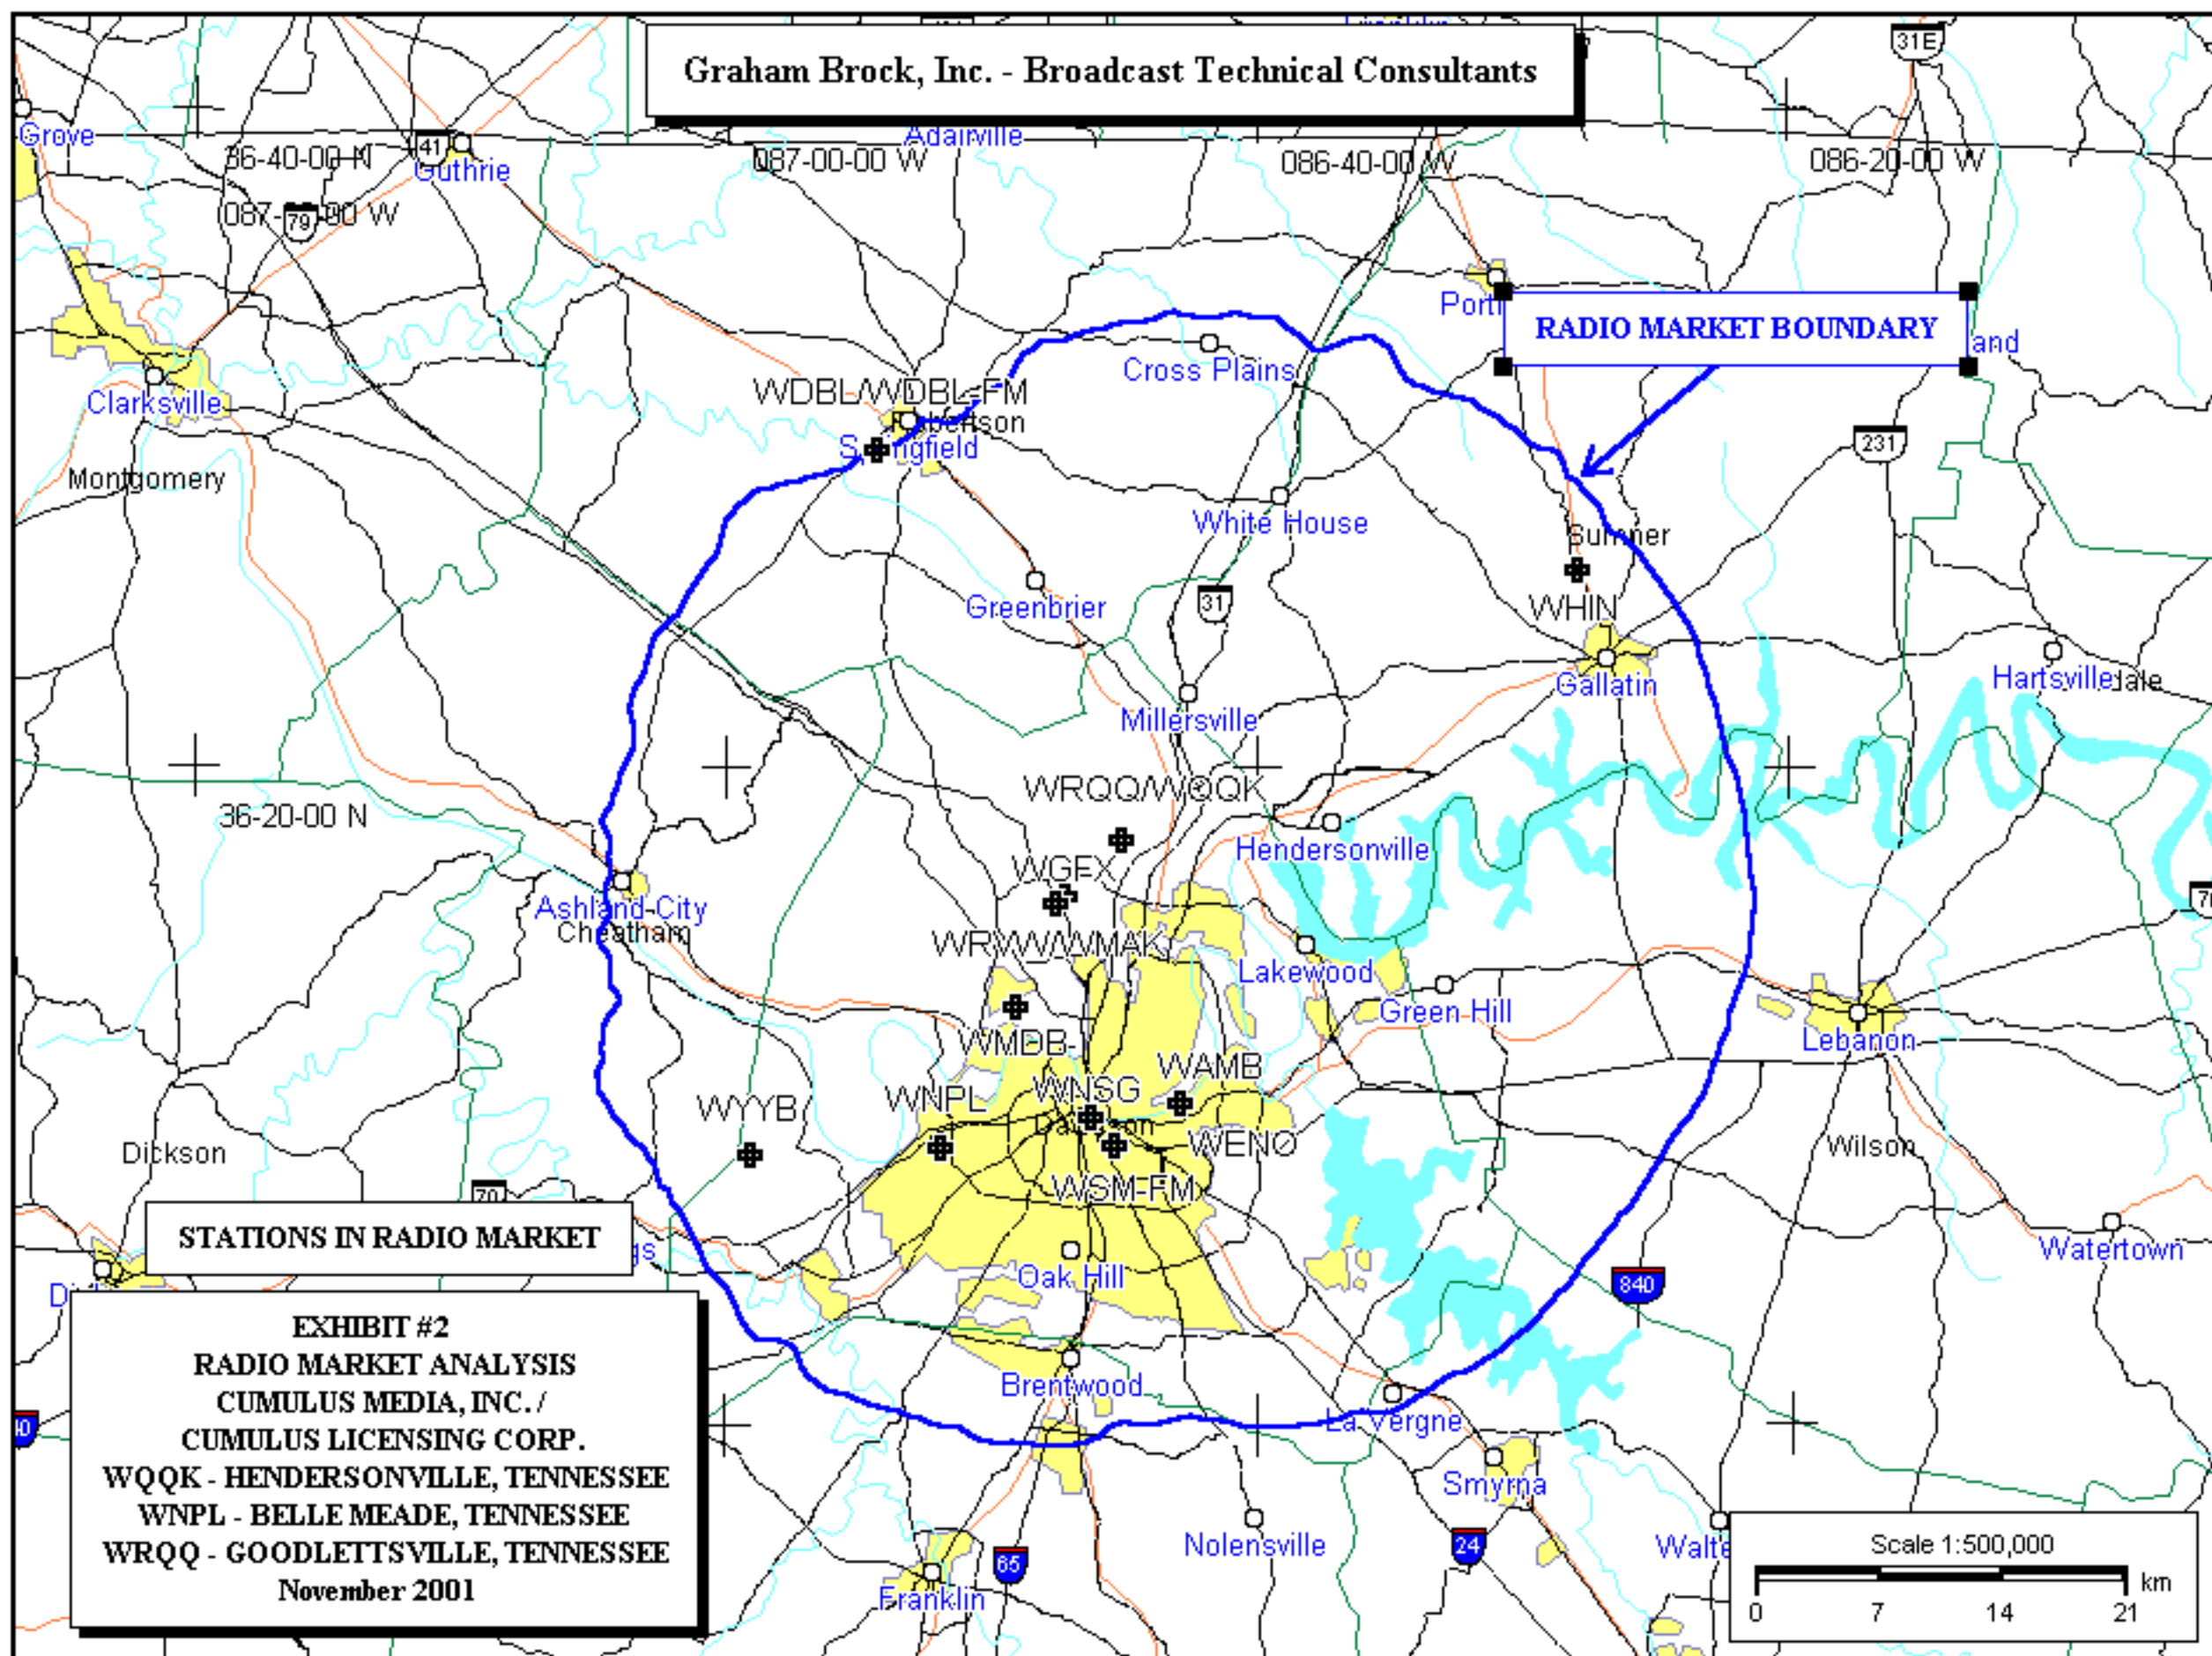

---

1) Although there are additional stations providing service to the Radio Market, they are not considered since the number of stations was ample to demonstrate compliance with the rules based on the number of stations proposed to be commonly owned.
