Special Temporary Authority

Dear Mr. Menzer:

This is in reference to the request filed on June 29, 2022. YPBC requests a further extension of the STA granted on April 1, 2016, to continue operating ND at night with reduced power to allow time to file the required FCC Form 302 application.¹ In support of the request, YPBC states that it plans to file the application (to update all operating parameters) after completing all remaining repairs/modifications/testing.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and YPBC may continue to operate ND at night with a maximum of 0.25 kW, with no change to the licensed daytime 5 kW operation. YPBC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

¹ WOYK(AM) is licensed for operation on 1350 kHz with 5 kW day (ND) and 1 kW night (DA).

This authority expires on **January 4, 2023.**

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with the first name "Joe" and last name "Szczesny" clearly legible.
