November 16, 2016

Dear Scott:

In response to the W268CN antenna that is located above the WRCJ directional antenna. The transmission line that is to feed the W268CN antenna was bundled with the other lines in the model that pass through the aperture of the WRCJ directional antenna. The transmission line that feeds the W268CN antenna will have no effect on the WRCJ directional antenna pattern.

If you need anything else, do not hesitate to contact us.

Tom Scharf
