

MODIFICATION OF STATION LICENSE
RADIO LICENSE HOLDING SRC, LLC
WRRM (FM) RADIO STATION
CH 253B - 98.5 MHZ - 18.0 KW
CINCINNATI, OHIO
July 2015

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Radio License Holding SRC, LLC ("RLH"), licensee of radio station WRRM, Channel 253B, Cincinnati, Ohio (BLH-19850415LB). RLH is herein submitting an application to modify the license of WRRM to reflect the installation of a combiner and change of antenna in order for co-owned station WGRR (auxiliary), Channel 278B, Hamilton, Ohio to share the WRRM antenna. No change to the licensed center of radiation or power is proposed. A calculation of the transmitter power output of the WRRM transmitter is attached as Exhibit A. In addition, the factory Field Service Report and Report of Intermodulation Product Findings from ERI is included as Exhibits B and C.

Since no construction permit was necessary to install the combiner, there are no operating conditions or restrictions for WRRM. However, RLH will, in cooperation with other tower users, reduce the power of WRRM or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines.
