

October 13, 2010

Mr. Pat Cooney
WAMC Radio
318 Central Avenue
Albany, NY 12206

Dear Pat,

By way of this letter I hereby certify that I oversaw the installation of the directional antenna system as specified in your Construction Permit No. BNPED-20071019ATD for WWES at Mount Kisco, NY. The antenna was assembled in accordance with the instructions provided by Kathrein Scala. Further, the antenna was installed on the pole at the specified azimuth as specified by Shively Labs who prepared the FCC Proof Report.

My qualifications are a matter of record with the Federal Communications Commission. My experience in broadcast engineering spans a 29 year period and is inclusive of radio station design, construction, installation and service. This includes specifically the service and installation of numerous FM directional and non-directional broadcast antennas.

Please call if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Bud Williamson", written over the word "Sincerely,".

Charles (Bud) Williamson
