

WORKSHEET #2

REPRESENTATIVE TV GOVERNING BOARD (Section II, Question 3)

For each member of the TV applicant's governing board, check the box of the one element that best describes that member. TV applicants who check four or more categories (for a different member of their board) can certify that their board is representative of community elements in response to Section II, Question 3.

EXAMPLE: An applicant's 5 member governing board consists of one farm worker, two teachers, the mayor and one clergyman. The board is representative because it encompasses four community elements: agriculture, education, government and religion.
