Whan's Consulting
1806 Ridgemont Dr.
Wichita Falls, TX 76309-1807

Ref: Radio Tower

Mr. Whan:

The following information gives you the actual location of the tower as-built in the Northeast Quarter (NE1/4) of Section 34, Township 3 North, Range 9 West of the Indian Meridian, Comanche County, Oklahoma. I collected four hours of GPS data on April 30, 2001. This data was processed by using OPUS (Online Positioning User Service) provided by the National Geodetic Survey. The antennas are pointing in a 220 degrees Az direction from the tower. I field verified this as-built information on October 30, 2001.
