

## **METRO MARKET ANALYSIS FOR MEDIA OWNERSHIP RULE COMPLIANCE**

Because the communities of license of some stations in which iHeartMedia, Inc. (“iHeart”) holds attributable interests (“iHeart Stations”) are located inside of defined Nielsen Metro Markets (“Metro Markets”), or are reported as “Home” to Metro Markets by BIA’s Media Access Pro database (“BIA”), relevant metro market analyses are provided below.

The local radio ownership rule establishes the numerical limits on radio station ownership based on the total number of commercial radio stations in a market.<sup>1</sup>

Those limits are:

- (1) in a radio market with 45 or more radio stations, a party may own, operate, or control up to 8 radio stations, not more than 5 of which are in the same service (AM or FM);
- (2) in a radio market with between 30 and 44 inclusive radio stations, a party may own, operate, or control up to 7 radio stations, not more than 4 of which are in the same service (AM or FM);
- (3) in a radio market with between 15 and 29 (inclusive) radio stations, a party may own, operate, or control up to 6 radio stations, not more than 4 of which are in the same service (AM or FM); and
- (4) in a radio market with 14 or fewer radio stations, a party may own, operate, or control up to 5 radio stations, not more than 3 of which are in the same service (AM or FM), except that a party may not own, operate, or control more than 50 percent of the stations in such market.

The number of radio stations in each Metro Market is determined by counting the number of stations that are listed as “home” to a Metro Market, as determined by BIA, as well as any other licensed full power commercial or noncommercial radio station whose community of license is located within the Metro Market’s geographic boundary.

Each Metro Market in which at least one iHeart Station is “home”, or geographically located, was studied in accordance with the Federal Communications Commission’s local radio ownership rule,<sup>2</sup> with tabular results given in Table 1.

As noted in Table 1, the iHeart Station combinations comply with the FCC’s local radio ownership rule under a Metro Market analysis in all markets except for two: Brunswick, GA, and Grand Forks, ND-MN.

---

<sup>1</sup> See 47 C.F.R. § 73.3555(a).

<sup>2</sup> *Id.*

In the Brunswick, GA market the existing combination of 2-AM and 4-FM exceeds by 1 the total allowed number of stations for the 14 total station ownership tier allowance of 5 stations total, as well as the maximum limit of 3 per AM or FM service.

In the Grand Forks, ND-MN market the existing combination of 1-AM and 4-FM does not exceed the total allowed number of stations for the 14 total station ownership tier allowance of 5 stations total, but is it not in compliance with the maximum limit of 3 stations per AM or FM service. A proposal to address each of these two situations is discussed in a separate exhibit to this application.<sup>3</sup>

Attached as Table 2 is a listing of all iHeart Stations which are reported “home” to or licensed to a community located geographically in a Metro Market.<sup>4</sup> Stations are listed by their “home” market, and the geographic market of each station is also provided.<sup>5</sup>

Provided as Table 3 is a listing of all stations listed by BIA as being in the Metro Markets reported upon in Table 1.

---

<sup>3</sup> See Comprehensive Exhibit.

<sup>4</sup> As reported by BIA/Kelsey MEDIA Access Pro Database (“BIA”). WRSO(AM) (Facility ID 129548), which is located in the Orlando, FL Metro Market, is attributable due to a Local Marketing Agreement (“LMA”), which is on file with the Commission but was not yet reported by BIA at the time of this analysis.

<sup>5</sup> A station not located geographically in a market is indicated by no entry in the column “Geo Market Name”, and by the use of “999” in the column “Geo Market Rank”.

Table 1. Summary Results of Metro Market Analysis

Market Rank	Market Name	Stations In Market	FCC Max (AM+FM)	FCC Max (AM or FM)	iHeart AMs	iHeart FMs	To Limit (AM+FM)	To Limit (AM)	To Limit (FM)
