Re: WMGI (FM), Terre Haute, IN
Midwest Communications, Inc.
Facility Identification Number: 6828
Special Temporary Authority
BESTA-20130829AGV

Dear Counsel:

This is in reference to the request filed August 29, 2013, on behalf of Midwest Communications, Inc. ("Midwest"). Midwest requests extension of the June 12, 2013 special temporary authority ("STA"), to continue operating station WMGI with reduced power. Currently, the licensee has made some repairs, and is awaiting additional parts and (if needed) a tower crew.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been working toward restoration of licensed operation. Additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WMGI may continue to operate at reduced power. Midwest must notify the Commission when licensed operation is restored. Midwest must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on March 16, 2014.

Sincerely,

A handwritten signature in black ink, appearing to read "Dale Bickel", written in a cursive style.
