

Section II, Question 2(b)

LightHouse Christian Center was originally founded on June 1, 1996 in Feeding Hills, Massachusetts, and was incorporated as Crossroads Christian Fellowship Center, Inc. in May 1997. Since then the name has been changed to the current name of LightHouse Christian Center. Although the organization's name has changed, we have been serving the Feeding Hills community continuously for five years. Our mission is to evangelize, educate and provide support to the citizens of our community and offer a "safe haven" for the members of the LightHouse congregation.

An LPFM radio station will allow LightHouse to better achieve its mission by offering a platform for excellent Christian teaching, music, and exhortation to our local community, especially targeting youth and seniors and those who are unable to attend LightHouse classes regularly. Specifically, these are the areas the low power FM station will better allow LightHouse's goals to be met:

- Regular Bible study programming
- Intercessory prayer call-in
- Musical selections which will provide inspiration and encouragement
- Marriage commitment programs
- Local news and weather
- Civic and social concerns of interest to the citizens of the Feeding Hills community
- Programs focusing on interpersonal relationships and how having a personal relationship with God through Christ is the basis on which to build
- Children's programming to include dramas, coverage of sports events, announcements of concerts and community events
- Programs that address the needs of Senior Citizens
- Community calendar
