

**MINOR CHANGE APPLICATION**  
**KCFA, INC.**  
**KCFA (FM) RADIO STATION**  
**CH 291B1 - 106.1 MHZ - 3.6 KW**  
**ARNOLD, CALIFORNIA**  
**June 2002**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of KCFA, Inc., licensee of FM radio station KCFA, Channel 291B1, Arnold, California. KCFA, Inc., herein proposes to increase the center of radiation above ground level and above mean sea level, increase the height above average terrain and decrease the effective radiated power. As such, KCFA will remain an equivalent Class B1 facility.

Since KCFA, Inc., is proposing to re-install the KCFA antenna at its existing site, the Federal Aviation Administration has not been apprised of this proposal. The existing KCFA tower has not been registered with the Commission, since it is less than 200 feet in height.<sup>1</sup> All other necessary documentation used to certify the technical portion of FCC Form 301 has been forwarded to the applicant and is available to the Commission upon request.

---

1) The Commission's TOW AIR program was utilized to determine that tower registration was not necessary.
