

MODIFY BPED-20120130ABA
CAROLINA CHRISTIAN RADIO, INC.
WWIL-FM RADIO STATION
CH 213C3 - 90.5 MHz - 4.0 kW
WILMINGTON, NORTH CAROLINA
December 2012

TECHNICAL STATEMENT

This Technical Statement and attached exhibits were prepared on behalf of Carolina Christian Radio, Inc. (“CCR”), licensee of station WWIL-FM, Channel 213C3, Wilmington, North Carolina. CCR herein proposes to make minor changes to the WWIL-FM facilities by relocating the transmitting antenna while reducing effective radiated power. This application is filed contingently with an application to relocate the I.F. related station WWQQ, Channel 267C2, Wilmington, North Carolina.

CCR proposes this facility as a modification of its outstanding construction permit (BPED-20120130ABA). The actual facility is identical to the facility authorized under BMPED-20120920AAX. This contingency recognizes the request by Cumulus Licensing LLC to relocate WWQQ-FM.

At the proposed WWIL-FM site, Channel 213C3 meets the Commission’s minimum distance separation requirements to WWQQ-FM.
