Re: Davidson Media Station WACM Licensee, LLC  
WACM(AM), West Springfield, MA  
Facility Identification Number: 60390  
Construction Permit: BMXP-20110525AAZ  
License application: BXL-20120117ALA

Dear Mr. Kirpatrick:

This is in reference to the above-captioned license application cover Construction Permit BMXP-20110525AAZ.

A preliminary engineering study of the application reveals that details of the method of moment model that generated the current magnitude values in Figure 2A must be submitted. Specifically, the description of how the top loading is modeled and a diagram of the tower with top loading details must be included. In addition, we find that condition #5 was not fulfilled because co-located station WSPR(AM) has not filed a FCC Form 302,<sup>1</sup> and the daytime reference fields for measurements on 1490 kHz (WACM) and 1270 kHz (WSPR) and spurious signals measured on 2760 kHz, 4250 kHz, 1710 kHz, 4030 kHz and 1050 kHz were not provided to show they are below -73 dB for WACM(AM) and WSPR(AM).

Further action on the subject application will be withheld for thirty (30) days from the date of this letter in order to provide an opportunity to file a curative amendment. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the rules.

Sincerely,

Son Nguyen  
Supervisory Engineer  
Audio Division  
Media Bureau
