

APPLICATION FOR STATION LICENSE
CUMULUS LICENSING LLC
KACL (FM) RADIO STATION
CH 254C1 - 98.7 MHZ - 100.0 KW
BISMARCK, NORTH DAKOTA
May 2006

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Cumulus Licensing LLC ("Cumulus"), licensee of radio station KACL, Channel 254C1, Bismarck, North Dakota. Cumulus has an outstanding permit to correct the coordinates of KACL (BPH-20060329AMF). Cumulus herein submits a license application to cover the outstanding permit. Cumulus is operating KACL under automatic program test authority. A calculation of the transmitter power output of the KACL transmitter is attached as Exhibit A.

There is one operating condition/restriction on the KACL permit.¹ The condition states that Cumulus will reduce the power of KACL, or cease operation as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. Cumulus will comply with this requirement. Based on the foregoing, it is believed that KACL is operating in compliance with the Commission's rules and that all conditions have been met.

1) KACL shares an antenna with KKCT, Channel 248C1, Bismarck, North Dakota. Since there are no actual changes to the KACL facilities and no conditions were noted on the construction permit, the shared antenna is not addressed in this instant application.
