

APPLICATION FOR STATION LICENSE
MILLER COMMUNICATIONS, INC.
W247BN FM TRANSLATOR
CH 247D - 97.3 MHZ - 0.18 KW
KINGSTREE, SOUTH CAROLINA
February 2014

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Miller Communications, Inc. ("Miller"), licensee of FM translator station W247BN, Channel 247D, Kingstree, South Carolina. Miller has a construction permit to make minor changes in the W247BN facilities (BPFT-20130814AAI). This instant application seeks a license to cover the outstanding permit. Exhibit A is a calculation of the transmitter power output for FM translator W247BN.

There are two special operating conditions/restrictions listed on the W247BN permit. The first condition states:

"The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines."

Miller states that it will, in cooperation with other tower users, reduce the power of W247BN or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines.

The second condition states:

"Prior to commencing program test operations, FM Translator or FM Booster permittee must have on file at the Commission, FCC Form 350, Application for an FM Translator or FM Booster Station License, pursuant to 47 C.F.R. Section 74.14."

This application satisfies that condition.

Based on the foregoing, it is believed that Miller has complied with all conditions and can operate W247BN in accordance with Commission's rules.
