TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Qantum of Cape Cod License Company, LLC ("Qantum"), licensee of radio station WXTK, Channel 236B, West Yarmouth, Massachusetts. Qantum has relocated its transmitter and shorted the transmission line leading to its antenna. No changes to the actual antenna have been made; however, due to the change in transmission line length, an adjustment of the station's transmitter operating power is necessary. Qantum herein submits an application to cover the WXTK transmitter power output. Exhibit A is a calculation of the WXTK transmitter power output.

Based on the foregoing, it is believed that WXTK is in compliance with the Commission's rules and that all conditions have been met.
