**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Qantum of Florence License Company, LLC ("Qantum"), licensee of radio station WEGX, Channel 225C, Dillon, South Carolina. Qantum holds an outstanding construction permit (BPH-20030228AET) to make minor changes in the facilities of WEGX. This instant application is for a license to cover the permit. Attached as Exhibit A is a calculation of the transmitter output power for WEGX.

There was a lone condition on the WEGX permit. The condition requires Qantum to reduce the power of the station or cease operation, as necessary, to ensure that persons having access to the site will not be exposed to radio frequency radiation levels in excess of the Commission's limits. Qantum restates it will take the necessary steps to ensure compliance with the radio frequency radiation exposure limits.
