Re: Entravision Holdings, LLC
KCVR (AM), Lodi, California
Facility Identification Number: 60424
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed October 9, 2008, on behalf of Entravision Holdings, LLC ("EVH"). EVH requests extension of the special temporary authority ("STA") granted on April 9, 2008, to operate Station KCVR with parameters at variance and/or reduced power while maintaining monitor points within licensed limits.¹ In support of the request, EVH states that thieves have removed a portion of the station's ground system, and requests extension of STA while it continues the work of replacing the stolen radials.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KCVR may operate with parameters at variance and/or reduced power while maintaining monitor points

¹ KCVR is licensed for operation on 1570 kHz with 5 kilowatts daytime and 0.5 kilowatt nighttime, employing different directional antenna patterns daytime and nighttime (DA-2-U).

within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. EVH must notify the Commission when licensed operation is restored.² EVH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **September 24, 2009**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller", with a long horizontal flourish extending to the right.

Charles N. Miller, Engineer
