Re: Liberman Broadcasting of Dallas License LLC
(LBDL)
KZMP(AM), University Park, TX
Facility Identification Number: 63551
Special Temporary Authority (STA)
BESTA-20180611AAY

Dear Mr. Liberman:

This is in reference to the request filed on June 11, 2018. LBDL requests an extension of the STA granted on June 5, 2017, to continue to operate with reduced nighttime power using a temporary transmitter to allow time to complete repairs and file the required FCC Form 302 application.¹ In support of the request, LBDL states that additional time is needed to purchase and install new equipment.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ KZMP(AM) is licensed for DA operation on 1540 kHz with 32 kW day and 0.75 kW night, using different patterns.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and LBDL may continue to operate with nighttime DA parameters at variance and reduced power (with no change to the daytime licensed operation). LBDL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. LBDL must file the required FCC Form 302 application (if any changes are needed), or submit an e-mail to my attention to certify the date the station resumed licensed operations with negligible changes.

This authority expires on **December 29, 2018**.

Sincerely,

A handwritten signature in blue ink, appearing to read 'JS', is positioned above the typed name and title.
