TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Oklahoma Community Television, LLC ("OCT"), permittee of digital low power/companion television translator K27JO-D, Channel 27, Strong City, Oklahoma. OCT holds an outstanding permit for K27JO-D (BMPD TT-20091221ADK), authorizing a reduction in power and a change in the antenna system to be used. This instant application seeks a license to cover the outstanding permit for K27JO-D. Attached as Exhibit A is a calculation of the transmitter output power for the K27JO-D transmitter.

There are no special operating conditions or restrictions on the K27JO-D construction permit. However, OCT will, in cooperation with other tower users, reduce the power of K27JO-D or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed K27JO-D is operating pursuant to the Commission's rules.
