

Exhibit 8

Interference Analysis LPFM Spacing and Overlap Requirements

Spacing Chart:

The spacing situation at the licensed site is as follows:

```

                                Calvary Chapel Of Grants Pass
                                New site
REFERENCE                      CLASS = L1                      DISPLAY DATES
42 25 22.0 N.                  Spacings to 3rd Adj.          DATA 08-14-08

```

Thus the existing LPFM is short spaced to three facilities, itself, K296DA and unused AL0433.

The spacing situation at the proposed site is as follows:

Calvary Chapel Of Grants Pass									
New site									
REFERENCE					CLASS = L1	DISPLAY DATES			
42 23 45.0 N.						DATA 08-14-08			
123 20 43.0 W.	Current				Spacings to 3rd Adj.	SEARCH 09-20-08			
----- Channel 294 - 106.7 MHz -----

Thus the proposed LPFM is short spaced to two facilities, itself and K296DA.

A facility cannot coexist with itself, so the short spacing to KCGP is immaterial.

The short spacing to K296DA is reduced from 9.88 km to 9.67 km.

The change eliminates the short spacing to the AL0423.

This is therefore an acceptable modification per 47 CFR 73.807(f) .
