ENGINEERING STATEMENT PREPARED BY RYAN WILLOUR OF THE FIRM  
KESSLER AND GEHMAN ASSOCIATES, INC., TELECOMMUNICATIONS  
CONSULTING ENGINEERS IN SUPPORT OF MINOR AMENDMENT TO A PENDING  
FM TRANSLATOR STATION FCC FILE NO.: BNPFT-20030825AGU  
JACOBS BROADCAST GROUP, INC.  
EULATON, AL

**Technical Statement**

The firm Kessler and Gehman Associates, Inc. has been retained by Jacobs Broadcasting Group Inc. (“JBG”) to amend a new FM translator station on Channel 245D located in Eulaton Alabama. JBG herein proposes to amend the pending application by modifying the omnidirectional pattern to a directional pattern. No other changes have been made. The translator will continue to be a fill-in for licensed station WTDR, channel 224A, Munford, Alabama. As indicated in Exhibit 10, the licensed WTDR 60 dBu F(50,50) contour completely encompasses the 60 dBu F(50,50) contour of the proposed facility. Exhibit 13 demonstrates that the proposed facility will not cause interference to any full service station, nor will interference be caused or received to or from any existing or proposed FM translator or LPFM station.

**Certification**

I, Ryan Wilhour, state that I personally conducted the site survey described herein. The foregoing statement and the report regarding the aforementioned engineering work are true and correct to the best of my knowledge.
