TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Great Lakes Radio, Inc. ("GLR"), licensee of radio station WFXD, Channel 277C1, Marquette, Michigan. GLR herein submits FCC Form 302-FM to license the outstanding WFXD construction permit, BPH-20010827AAL. WFXD has commenced automatic program test with the facilities specified in its permit. Attached as Exhibit A is a calculation of the transmitter output power for WFXD.

The WFXD construction permit had only one condition. It relates to the reduction in power of the facility for those persons having access to the site with regard to radio frequency radiation levels at the site. GLR herein restates that it will reduce the power of the WFXD facilities to ensure that persons having access to the site will not be exposed to radio frequency radiation levels in excess of the rules.
