

CBS Radio of Sacramento Inc. ("CBS"), licensee of station KSFM (FM), Woodlawn, CA, pursuant to Section 73.1635 of the Commission's rules and Public Notice DA 04-712 hereby requests special temporary authority ("STA") to commence IBOC operations using a dual antenna system. In support of the instant request, CBS provides the following information:

Date – CBS intends to commence IBOC transmissions immediately upon grant of the requested STA.

Certification of Facilities – CBS hereby certifies that its facilities conform to the iBiquity hybrid specifications.

Technical Reference – In the event of interference, questions should be directed to Raymond C. Benedict (202) 457-4518

Transmitter Power Output – Analog: 18.5 KW Digital: 426 watts

Certification of ERP – CBS hereby certifies that its analog effective radiated power will remain as authorized.

Radiation Exposure Certification – CBS certifies that its interim operation will not cause human exposure to levels of radiofrequency radiation in excess of Section 1.1310 of the Commission's rules and is therefore categorically excluded from environmental processing pursuant to section 1.1306(b).

Auxiliary Antenna Data – The geographic coordinates, elevation data, and license file number for the auxiliary antenna to be employed are contained in the FCC 302 Auxiliary Antenna License Application BXLH-20061212AEC.
