

**BASIS FOR TRANSFER OF CONTROL**

In 1961 Pillar of Fire commenced operation of Station WAKW, Cincinnati, Ohio. Over the years the composition of the Board of Trustees has gradually changed. The present Board consists of five persons.

Although some uncertainty exists as to whether gradual changes such as these in the Board of a non-profit, non-stock licensee constitutes a transfer of control, this application is filed out of an abundance of caution. Pending Commission action on this application, the new Board will take no action with respect to the program, the policies or operation of Station WAKW.
