Re: Cranston Acquisition, LLC (FRN: 0016172108)
Station KMCC-DT, Laughlin, NV (Facility ID 41237)
FCC File No. BEXP-20070302ABX
(as extended by FCC File Nos. BEXP-20080312AFA, BEXP-20090316ACK,
BEXP-20090916ADP, BEXP-20100312ADL, BEXP-20100914AHV and
BEXP-20110317ADB)
Request For Extension of Special Temporary Authority

Dear Sir/Madam:

Cranston Acquisition, LLC ("Cranston") licensee of KMCC-DT, Laughlin, NV, requests an extension of its Special Temporary Authority ("STA") for an experimental "fill-in" digital booster facility, with the technical parameters specified in the initial STA request (FCC File No. BEXP-20070302ABX). Copies of the initial grant and the most recent extension appear at Attachment A. The current extension is due to expire on September 15, 2011. The facility is used to provide digital broadcast service to portions of KMCC's authorized service area. Cranston is preparing and has coordinated with FCC staff regarding an application to license this facility as a distributed transmission system, but completion of the application has taken longer than expected.

Cranston provides digital coverage of Cranston's community of license, Laughlin, Nevada, pursuant to license BLCDT-20081114ACI. The instant experimental booster STA provides service within the authorized full-service contour for KMCC-DT from a site located at Black Mountain, Nevada at the following coordinates: 35-56-43N, 115-02-32W (NAD27) and will not cause impermissible interference. KMCC would continue to operate its STA using a directional antenna with 5 kW ERP at the following elevation parameters:

Radiation Center AGL	57 meters
Radiation Center AMSL	1378 meters

1140 19th Street, N.W. | Suite 600 | Washington, DC 20036
Voice: 202.296.2007 | Fax: 202.296.2014
www.rinicoran.com | www.telecommunicationslaw.com

For the foregoing reasons, Cranston respectfully requests expedited grant of the instant application for extension of its experimental booster STA for a one year period.

Respectfully submitted,

Robert J. Rini

Enclosure
