

## TOWAIR Determination Results

DETERMINATION Results	
<p>Structure does not require registration. There are no airports within 8 kilometers (5 miles) of the coordinates you provided. However, because the airport database we use is updated periodically, it does not take into account the most recent airport construction, nor does it include proposed airports. You still must register with the FCC if your structure is located near one of these airports or if the FAA specifically asks you to register.</p>
