¹ Question III.4(a)(5) of FCC Form 314 instructs applicants to provide for each party to the application the percentage of total assets (debt plus equity) held. It is our understanding, based on discussions with the FCC’s staff, that a response need be provided to this question only if the Commission’s equity debt plus (“EDP”) rule applies, *i.e.*, only if an otherwise non-attributable party (1) holds equity and/or debt interests that in the aggregate exceed 33% of the total asset value of a station, and (2) either (i) supplies over 15% of the total weekly broadcast programming hours of the station or (ii) holds an attributable interest in another media interest that is subject to the multiple ownership/cross-ownership rules and that is in the same market as the station. None of the interests identified in this exhibit is attributable by virtue of the EDP rule. Accordingly, no EDP information is shown. In the interest of clarity, however, in response to Question III.4(a)(5) the equity percentage is shown.
