Re: KBEQ-FM license application

The FM antenna installed on the KDTD-AM (formerly KCKN) tower was previously installed and licensed by FM station KFKF-FM. The only change made to the system during this project was to replace the existing transmitter with a frequency agile transmitter that could be used by any one of the four stations licensed to use this as an auxiliary facility.

The change in transmitter did not adversely affect the operation of KDTD-AM.

Contract Engineer

A handwritten signature in dark ink, appearing to read "Ed Treese". The signature is fluid and cursive, with a long horizontal stroke at the end.

Ed Treese
