Mr. Massish:

On behalf of The Trustees of the University of Pennsylvania, licensee of noncommercial educational radio station WXPB(FM), Philadelphia, PA (FCC Facility ID No. 68229) ("WXPB"), we have reviewed the proposed changes to noncommercial educational radio station WPEB(FM), Philadelphia, PA (FCC Facility ID No. 71637) ("WPEB") set forth in its application for modification of license (FCC File No. BPED-20160726AAV, as amended), including the contour exhibit, and waiver request (the "WPEB Modification Application").

Based on its review of the WPEB Modification Application, WXPB has concluded that the data provided by WPEB coincides with WXPB's measurements and calculations and that the interference zone will remain above people's heads and will not cause interference to the listeners of WXPB. Accordingly, WXPB consents to the waiver request set forth in the WPEB Modification Application.

In the event that WPEB's actual operation, as modified, causes unanticipated material interference to WXPB, WPEB and WXPB shall attempt to resolve the interference. If the parties are unable to resolve the interference within thirty (30) calendar days, WPEB agrees to reduce its ERP as necessary to eliminate such interference. The technical staffs of WXPB and WPEB agree to cooperate and communicate during implementation of WPEB's proposed modification in order to minimize any interference.

Thank You,

A handwritten signature in blue ink, appearing to read "Jared Styles", written over the "Thank You," text.
