

Clear Channel Broadcasting Licenses, Inc., Assignee
FCC Form 314
Response to Section III, Item 6

EXHIBIT 14

MULTIPLE OWNERSHIP STUDY

TECHNICAL STATEMENT
 RADIO MULTIPLE OWNERSHIP ANALYSIS
 CLEAR CHANNEL BROADCASTING LICENSES, INC.

This statement and the attached figures were prepared on behalf of Clear Channel Broadcasting Licenses, Inc. (“CCBL”), a licensee subsidiary of Clear Channel Communications, Inc. (“Clear Channel”). CCBL proposes the acquisition of KTZR(AM) and KOHT(FM). A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership or time brokerage:

Call Sign	City of License	Facilities
KTZR(AM)	Tucson, AZ	1450 kHz, 1 kW, U, ND1
KOHT(FM)	Marana, AZ	Channel 252A, 6 kW, 53 m
KNST(AM)	Tucson, AZ	790 kHz, 5 kW, U, DA1
KRQQ(FM)	Tucson, AZ	Channel 229C, 94 kW, 619 m
KOYT(FM)	Tucson, AZ	Channel 225C, 93 kW, 621 m
KWFM-FM ¹	Green Valley, AZ	Channel 246C3, 0.3 kW, 737 m

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), an ownership study has been prepared in accordance with the Federal Communications Commission multiple ownership rules.²

Clear Channel does not have or propose to have an attributable interest in any other station with a principal community coverage contour that overlaps or intersects with KTZR(AM) or KOHT(FM).

Radio Markets

The “radio market” applicable to common ownership of the subject stations is defined as the area encompassed by the mutually overlapping principal community contours of the stations proposed to be commonly owned. The predicted principal contours of KTZR(AM), KOHT(FM), KNST(AM), KRQQ(FM), KOYT(FM) and KWFM-FM are shown in Figure 1 herein. There are two “radio markets” for analysis under the Commission’s Rules.

Market 1 is defined by the principal community coverage contours of KTZR(AM), KOHT(FM), KNST(AM), KOYT(FM) and KRQQ(FM).

Market 2 is defined by the principal community coverage contours of KTZR(AM), KNST(AM), KOYT(FM), KRQQ(FM) and KWFM-FM(LIC) or KWFM-FM(APP).

¹ There is a pending application (BPH20010212ABQ) for KWFM-FM to modify its facilities.

² See Section 73.3555 of the FCC Rules.

Count of Stations in Defined Markets

The number of radio stations in a "radio market" is determined by counting the operating, commercial stations having principal community contours which overlap or intersect the principal community contours which define the radio market, plus the subject stations to be co-owned.

In Markets 1 and 2, there are 35 stations (19 FM and 16 AM) that intersect or overlap each "radio market."

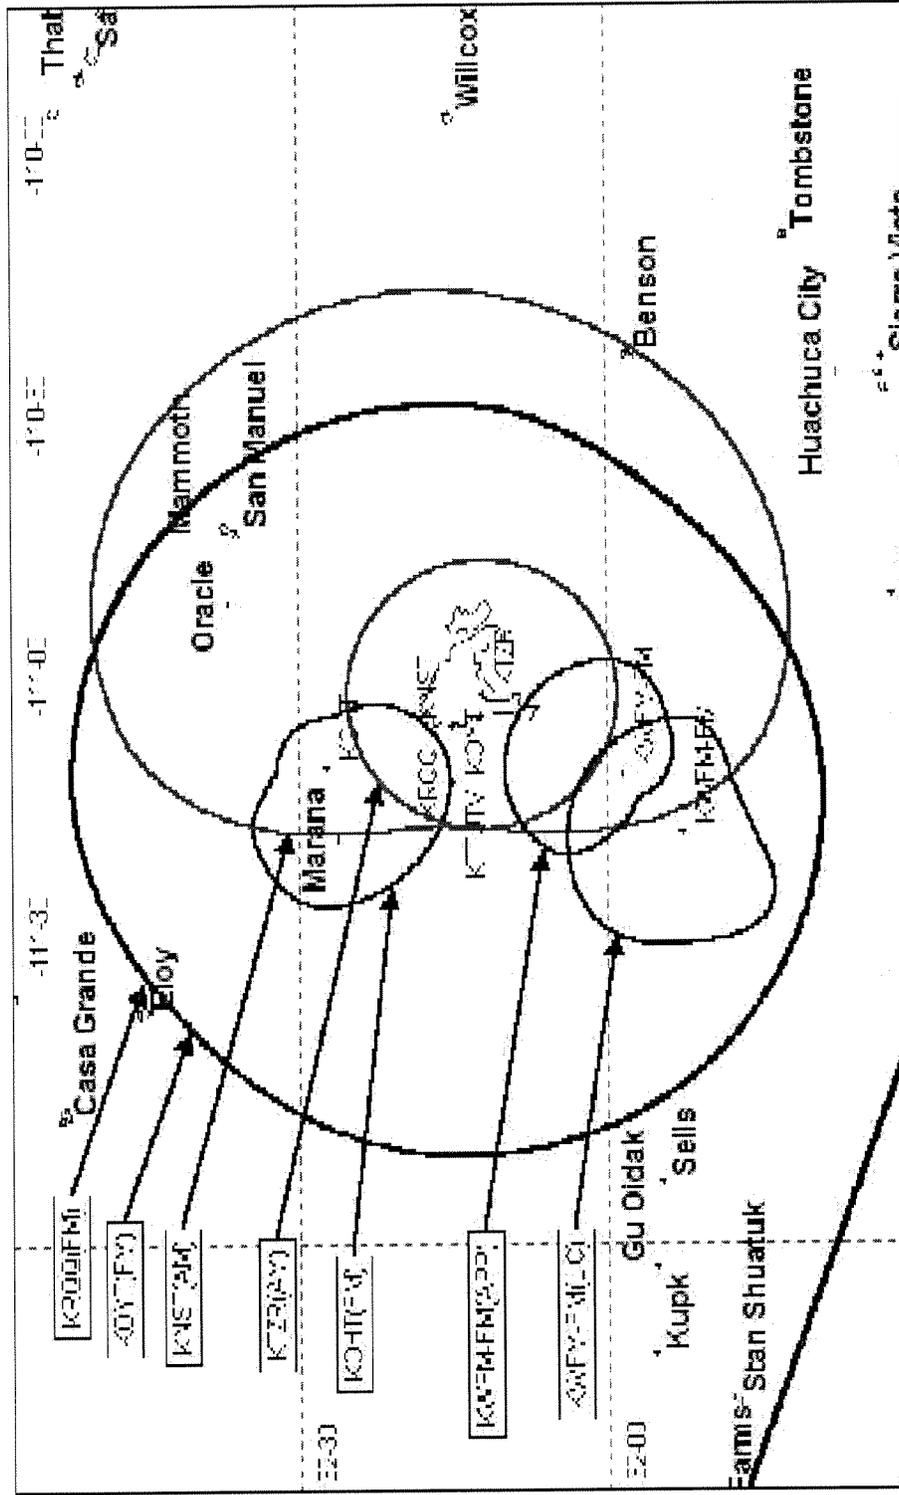

Figure 2 is a tabulation of the other radio stations identified in the defined radio markets. Only known licensed, operation commercial stations were employed for the study. Distances to contours for AM stations were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 CFR 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 CFR 73.313. Terrain data was derived from the N.G.D.C. 30-second computer database for each of the FM stations using radials spaced ever 10 degrees of azimuth.

Based on the above, it is concluded that the proposed combination of stations complies with Section 73.3555(a) of the FCC Rules.
