

**Three Angels Broadcasting Network
Dan Peek—Engineer
P.O. Box 220
West Frankfort, Illinois 62896**

February 23, 2004

In evaluating the proposed new construction permit FCC file number BNPTTL-20000831BSU FID=129362, Three Angels Broadcasting Network proposes to change their offset to plus (+) from zero (0) as well as changing their antenna to reduce interference to licensed station K51BP FID 51500. This allows for an increase in ERP, but still respecting the contour method of determining outgoing interference.

The attached page identifies the considered list of stations when the outgoing interference analysis was executed.

Three Angels Broadcasting Network further agrees to accept any incoming interference caused by Charles C. Townsend, III application BNPTTL-20000828ARS FID 127606 and Dean M. Mosley application BNPTTL-20000828AHN FID 126444 and would greatly appreciate being removed from the mutual exclusive group M160 and receiving a positive response to this application.

STATIONS CONSIDERED IN THE OUTGOING INTERFERENCE STUDY
