Dear Tyson,

The KSSO installation was completed on July 27, 2012. The Systems With Reliability, inc. (SWR) antenna was constructed and installed according to the details outlined by SWR inc.

A representative of a Land Surveying company Survey Solutions Inc was employed to determine the orientation and was set to a heading of 107 degrees as outlined by SWR Inc.

Tony L Evans is a consulting broadcast Engineer with 29 years in the Broadcast Engineering/electronics field.

Sincerely,

Tony L Evans
