

**MULTIPLE OWNERSHIP EXHIBIT  
APEX BROADCASTING, INC.  
WVSC(FM) CHANNEL 276C2 – PORT ROYAL, SC  
MARCH 18, 2014**

This statement was prepared on behalf of Apex Broadcasting, Inc. ("Apex"). Apex is filing an FCC Form 301 minor modification application to upgrade the facilities of WVSC(FM), Facility ID# 49910, licensed to Parris Island, South Carolina, and as such a Radio Market analysis is required. WVSC is not licensed to a metro county in any Arbitron rated market. Therefore, a contour overlap study for stations not licensed to metro counties is necessary. Apex nor any of its shareholders, own or have any other interests in radios stations which would overlap principal community contours with the proposed WVSC modification. There are 26 full power AM and FM stations whose principal community contours overlap with the FCC F(50,50) 70 dBu of the proposed WVSC modification. FCC Rule §73.3555(a)(1)(iv) states that ownership of a combination of stations comprised of not more than one AM and one FM station is allowed under all stated ownership limits. Apex owns or has interest in only one full power station in this designated market. It is believed that the WVSC(FM) minor change application for Channel 276C2 at Port Royal, South Carolina is in compliance with §73.3555(a) of the rules.
