B. W. St. Clair

**Engineering Statement in Support
Of an Application to "Flash Cut"
K17DS to Digital Operation.**

Background

This application proposes only a "Flash Cut" to digital operation on the same channel and a corresponding reduction in "ERP".

Environmental Concerns

The change involves only a change to a digital transmitter. The presently installed antenna will remain in use. No construction is involved.

Engineers Statement

This application is based on the record for the analog station in CDBS and information supplied by the licensee. It is true and correct to the best of my knowledge and belief.

Respectfully submitted,

B. W. St. Clair
Engineering Consultant
