

**AMENDMENT TO PENDING APPLICATION
FOR A MINOR MODIFICATION OF CONSTRUCTION PERMIT
BMPED - 20120516ACE
WJLN 88.7 CHANNEL (204)
WHITE SPRINGS, FL.
FAITH AND ACTION COMMUNITY OUTREACH, INC
TV-6 STUDY**

This statement is being prepared on behalf of Faith and Action Community Outreach, Inc. the new proposed site for a construction permit is located outside the Grade B contour of TV station WABW-DT channel 6 Pelham, GA. WABW operates with an E.R.P. of 10.5 KW with an height above average terrain of 379.0 meters WABW is located at following coordinates 31-08-05 N 84-06-16 W. The distances between WABW and WJLN new proposed site is 164 KM. Therefore channel 204A potentially impacts tv station WABW according to FCC rule 73.525 .

The FCC requires any non commercial fm facilities operating on channels 200-220 must provide interference protection to TV-6 facilities as defined in 73.525 of the FCC rules this proposal must protect tv-6 stations within 235 km.

This proposal will continue to operate vertically polarized to minimize any impact and you will see that this proposed facility falls outside WABW Grade B Contour 47 dBu (50,50) see attached contour map WJLN 60 dBu (50,50) and the 40 dBu (50,10) will not impact any part of TV-6 WABW contour at all, it is believed that this proposed facility complies with the provisions of 47 CFR 73.525 regarding WABW TV-6.
