In re: K300AN, Chamberlain, SD  
BPFT-20130726ABT  
Facility ID # 138415

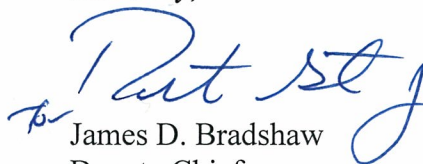

Dear Applicant:

This refers to: (1) the above-captioned application for K300AN, Chamberlain, South Dakota.

An engineering study of the application reveals that it is in violation of Section 74.1235(b)(2). The application proposes an effective radiated power ("ERP") of 250 watts. Section 74.1235(b)(2) states that the maximum allowable effective radiated power with an antenna height above average terrain (HAAT) between 145 meters and 157 meters is 115 watts. Our study reveals that the azimuth at 0° has a HAAT of 148.4 meters. The application failed to discuss this violation. Therefore, we will dismiss the application.

In light of the above, the application BPFT-20130726ABT filed by Lance Knudson is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division
