/1 There will be contour overlap normally prohibited by Section 74.1204. However, based on the undesired-to-desired (U/D) signal strength ratio methodology, which is permitted by the FCC per Living Way Ministries, Inc., it has been determined that no actual interference will occur due to lack of population under Section 74.1204(d). See Exhibit 17 and Figure 4.

/2 Proposal complies with the contour overlap provisions of Section 74.1204(a). See Exhibit 17 and Figure 3.
