

Exhibit 15 - St. George-Cedar City, Utah

This exhibit with attached maps demonstrates that the acquisition proposed in the instant application comports with the Commission's radio duopoly rule.

In this application, and a related application filed concurrently herewith, assignee Bonneville Holding Company ("BHC") proposes, as a result of the instant transaction to hold the licenses of Stations KDXU(AM), St. George, Utah, KSNN(FM), St. George, Utah, KUNF(AM) Washington, Utah, and KREC(FM) Brian Head, Utah.

The principal community contours of the four stations contemplated by the instant application mutually overlap with one another (See attached map at Exhibit A). Section 73.3555 of the Commission's rules provides that in a radio market with 14 or fewer commercial radio stations, a party may own, operate or control up to five commercial radio stations, not more than three of which are in the same service, except that a party may not own, operate, or control more than 50 percent of the stations in such market. There are more than eight commercial radio stations whose principal community contours overlap the relevant market (See Exhibits B and C). Thus, BHC can hold the licenses for KDXU(AM), KSNN(FM), KUNF(AM), and KREC(FM) under the radio duopoly rule.
