Re: Radio License Holding CBC, LLC (RLHC)  
KRRF(AM), Murray, UT  
Facility Identification Number: 58303  
Special Temporary Authority (STA)  
BESTA- 20171113ABS

Dear Mr. Denning:

This is in reference to the request filed on November 13, 2017. RLHC requests a further extension of the STA granted on March 22, 2016, to operate with a temporary antenna from an alternate site pending further action on BP-20170217AAA to propose a new permanent facility.<sup>1</sup> In support of the request, we note that the application remains on hold awaiting a curative amendment.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and RLHC may continue to operate using the following facilities:

---

<sup>1</sup> KRUZ(AM) is licensed for ND operation on 1230 kHz with kW day and night.

Geographic coordinates	40° 43' 14" N, 111° 54' 07" W (NAD 1927)
Frequency	1230 kHz
Hours of operation	Unlimited
Operating power	Maximum of 0.020 kW
Antenna type	Folded unipole antenna
Antenna radiator height	54°
Antenna efficiency	254 mV/m per kW at 1 km
Overall tower height	38.1 m

RLHC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See*47CFR 1.1310.

This authority expires on **June 5, 2018**.

Sincerely,

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau
