Dear Licensee:

This is in reference to the request filed December 16, 2015, on behalf of Bible Broadcasting Network, Inc. ("BBN"). While preparing to implement changes authorized by construction permit BPED-20140602BAS, BBN discovered lightning damage to its licensed antenna. To facilitate damage assessment and repair/replacement, or construction of the permit facility on an expedited basis, BBN requests temporary use of an omnidirectional, one-bay antenna mounted on the tower at the construction permit site at a height of 152 meters above ground level, with an ERP of 1 kW.

The request for STA IS HEREBY GRANTED. Station WYFS may operate with the facilities described in the STA request. BBN must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **June 15, 2016**.

Sincerely,

Dale Bickel
