

TECHNICAL STATEMENT
WFCB(FM), FACILITY ID 52042
CLEAR CHANNEL BROADCASTING LICENSES, INC.
RADIO MULTIPLE OWNERSHIP ANALYSIS -- 10/24/2002

This statement and the attached figures were prepared on behalf of Clear Channel Broadcasting Licenses, Inc. ("CCBL"), a licensee subsidiary of Clear Channel Communications, Inc. CCBL proposes to acquire the facilities of WFCB(FM). A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership or time brokerage:

Table 1: Proposed Commonly Owned or Controlled Stations Studied

Call Sign	City	State	Freq	Status
WCOL-FM	COLUMBUS	OH	92.3	LIC
WFCB(FM)	CHILLICOTHE	OH	93.3	LIC ¹
WKKJ(FM)	CHILLICOTHE	OH	94.3	LIC
WNCI(FM)	COLUMBUS	OH	97.9	LIC
WCHO-FM	WASHINGTON COURT HOUSE	OH	105.5	LIC
WFJX(FM)	HILLIARD	OH	105.7	LIC
WTVN(AM)	COLUMBUS	OH	610	LIC
WLW(AM)	CINCINNATI	OH	700	LIC
WZNW(AM)	COLUMBUS	OH	1230	LIC
WKSI(AM)	WASHINGTON COURT HOUSE	OH	1250	LIC
WCHI(AM)	CHILLICOTHE	OH	1350	LIC
WBEX(AM)	CHILLICOTHE	OH	1490	LIC

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), an ownership study has been prepared in accordance with the Federal Communications Commission's multiple ownership rules².

CCBL does not have an attributable interest in any other station with a principal community contour that overlaps or intersects the existing facility of WFCB(FM).

Radio Markets

The "radio market" applicable to common ownership of the subject stations is defined as the area encompassed by the mutually overlapping principal

¹ This instant application, BALH-20010918AAP.

² See 47 C.F.R. § 73.3555.

community contours of the proposed commonly owned stations. These mutually overlapping contours form six "radio markets," as shown in *Figure 1*, for analysis under the Commission's rules.

Radio Market "1" is defined by the mutually overlapping principal community contours of WCOL-FM, WFCB(FM), WNCI(FM), WFJX(FM), WTVN(AM), WZNW(AM). The predicted principal community contours of these stations (4 FM, 2 AM) are shown in *Figure 2*.

Radio Market "2" is defined by the mutually overlapping principal community contours of WCOL-FM, WFCB(FM), WNCI(FM), WTVN(AM), WLW(AM), WZNW(AM). The predicted principal community contours of these stations (3 FM, 3 AM) are shown in *Figure 4*.

Radio Market "3" is defined by the mutually overlapping principal community contours of WFCB(FM), WNCI(FM), WTVN(AM), WLW(AM), WKSI(AM). The predicted principal community contours of these stations (2 FM, 3 AM) are shown in *Figure 6*.

Radio Market "4" is defined by the mutually overlapping principal community contours of WFCB(FM), WCHO-FM, WTVN(AM), WLW(AM), WKSI(AM). The predicted principal community contours of these stations (2 FM, 3 AM) are shown in *Figure 8*.

Radio Market "5" is defined by the mutually overlapping principal community contours of WFCB(FM), WKKJ(FM), WTVN(AM), WLW(AM), WBEX(AM). The predicted principal community contours of these stations (2 FM, 3 AM) are shown in *Figure 10*.

Radio Market "6" is defined by the mutually overlapping principal community contours of WFCB(FM), WKKJ(FM), WTVN(AM), WCHI(AM), WBEX(AM). The predicted principal community contours of these stations (2 FM, 2 AM) are shown in *Figure 12*.

Count of Stations in Defined Markets

The number of radio stations in a "radio market" is determined by counting the operating, commercial stations having principal community contours that overlap or intersect the principal community contours that define the radio market, plus the subject commonly owned or controlled stations.

In Radio Market "1" studied herein, there are over 60 radio stations, including the subject co-owned stations, that overlap or intersect with the defined "radio market." *Figure 3* is the tabulation of the radio stations identified in the market.

In Radio Market "2" studied herein, there are over 160 radio stations, including the subject co-owned stations, that overlap or intersect with the

defined "radio market." *Figure 5* is the tabulation of the radio stations identified in the market.

In Radio Market "3" studied herein, there are over 160 radio stations, including the subject co-owned stations, that overlap or intersect with the defined "radio market." *Figure 7* is the tabulation of the radio stations identified in the market.

In Radio Market "4" studied herein, there are over 160 radio stations, including the subject co-owned stations, that overlap or intersect with the defined "radio market." *Figure 9* is the tabulation of the radio stations identified in the market.

In Radio Market "5" studied herein, there are over 160 radio stations, including the subject co-owned stations, that overlap or intersect with the defined "radio market." *Figure 11* is the tabulation of the radio stations identified in the market.

In Radio Market "6" studied herein, there are over 160 radio stations, including the subject co-owned stations, that overlap or intersect with the defined "radio market." *Figure 13* is the tabulation of the radio stations identified in the market.

Only known licensed, operating commercial stations were included in this tabulation. Distances to contours for AM stations were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 C.F.R. § 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 C.F.R. § 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials spaced every 10 degrees of azimuth.

Based on the above, it is concluded that the proposed modifications comply with § 73.3555(a) of the FCC Rules.

Sincerely,

Nestor Custodio
FCC Processing Administrator
Clear Channel Broadcasting Licenses, Inc.

The map displays the Cincinnati area with latitude and longitude coordinates. Key cities shown include Cincinnati, Columbus, Dayton, and surrounding areas. Radio stations and their call signs are labeled, along with their respective coverage areas:

- WZWN (AM)
- WFJX (FM)
- WNCI (FM)
- WCOL-FM
- WFCB (FM)
- WTVN (AM)
- WCHI (AM)
- WKKJ (FM)
- WBEX (AM)
- WLW (AM)
- WCHO-FM
- WKSI (AM)

The map also shows various geographical features and infrastructure, including roads and water bodies.
