

WYLL (AM), Chicago, Illinois
Facility ID No. 28630
BP-20021023ABA

STATEMENT RE *NUNC PRO TUNC* REACCEPTANCE

WYLL is concurrently filing on paper a Petition for Reconsideration and Acceptance *Nunc Pro Tunc* of Amended Application which requests reconsideration of the Audio Division's January 28, 2003, letter "(Letter)" dismissing WYLL's application ("Application") and acceptance *nunc pro tunc* of this amended Application.

The Letter stated that the Application failed to adequately protect the nighttime groundwave contour of WWVA, Wheeling, West Virginia, and would result in an increase in the existing 50% RSS of an assigned new AM station at Baie Comeau, Quebec, Canada, in violation of the U.S./Canadian Agreement. The amended Application shows compliance with the requirements applicable to WWVA and the Baie Comeau, Quebec, Canada, co-channel assignment. Accordingly, *nunc pro tunc* acceptance of the amended Application is warranted.
