Dear Sir:

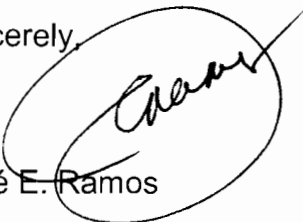

We own WJPX Channel 24 in Carolina, Puerto Rico. This station, known as MTV Puerto Rico, broadcasts MTV programs and it has been in the air since February 13, 1987.

Your station, Channel 25, which recently began broadcasting its analog signal, interferes with WJPX's signal, especially in the area of Bayamón.

We would appreciate if you would call our Chief Engineer, José Guerra, at 787-625-5658 or 787-402-2085, to discuss how we can remedy this situation.

Thank you very much for your prompt attention to this situation.

Sincerely,

José E. Ramos

C: J. Guerra
