

FCC Form 349 – Attachment to Exhibit 13
William Cornwall – Hudson, Wisconsin
File No. BNPFT-20030314AQA
August 27, 2003

47 CFR Section 74.1205 mandates that applicants for new or modified facilities for a noncommercial educational FM translator on Channels 201-220 demonstrate lack of prohibited interference with a Channel 6 television facility.

Applicant in the instant application seeks a construction permit for a new commercial FM translator to operate on Channel 239.

Accordingly, since the instant application is outside of the range of Channels 201-220, 47 CFR Section 74.1205 does not apply to this application.
